Forecast for Thursday 29 Dec 2022

Weather: Mainly cloudy with showers, falling as snow as low as 300m in early housr but mostly above 600m during the day. Some blizzard conditions on the Munros at times. Perhaps some brightness in the morning in the north. Showers becoming heavier mid to late afternoon then more scattered in the evening but those that remain will be wintry to low levels.

Chance of cloud-free hill tops above 800m: 20% rising 40% in evening.

Low cloud and visibility: Broken to overcast cloud at 600-800m with patches to 450m in showers. Visibility often poor due to snow and very poor where bilzzards develop, but good in drier weather below cloud.

Met Office Aberdeen Meteorologist's View
Despite less cold weather at low levels, expect full winter conditions on the mountains.

Forecast for Friday 30 Dec 2022
Weather: Outbreaks of snow arriving in early hours and lasting through the morning, heavy at times, snow to quite low levels at first but probably turning to rain up to about 600-750m later. Extensive hill fog. Blizzards. Snow showers falling to lower levels in the evening.

Maximum wind: South or southeasterly 40 gusts 60mph veering southwesterly 35 gusts 50mph by mid morning, slowly decreasing later in the day, then veering northwesterly and strengthening late evening.

Chance of cloud-free hill tops above 800m: 10% until late morning, improving 30% in afternoon.

Low cloud and visibility: Extensive cloud at 450-600m then occasionally broken and lifting 750-900m in the afternoon. Very poor visibility in cloud, heavy snow and blizzards, some improvements in afternoon away from cloud.

Temperature: **Glens:** Zero Celsius rising to Plus 3.
At 800m: Minus 3 Celsius rising to zero in the afternoon, then Minus 3 later in evening.
Freezing level: 400m lifting to 750m then falling 400m in evening. Considerable uncertainty in the freezing levels.
